

# CLEANING LABORATORY EVALUATION SUMMARY

SCL #: 2021  
 DateRun: 07/19/2021  
 Experimenters: Ross Goding, Edward Judge  
 ClientType: Lab  
 ProjectNumber: Project #4  
 Substrates: Glass/Quartz, Other, Chrome  
 PartType: Coupon  
 Contaminants: Glass  
 Cleaning Methods: Manual Wipe  
 Analytical Methods: Gravimetric, Visual  
 Purpose: To test the effectiveness of Cleaning Vinegar in the removal of SSL Soil 2 Glass Soil from various substrates.

Experimental Procedure: A Cleaning Vinegar solution was gathered to begin testing. Then, 3 coupons of each substrate (chrome, glass, mirror) were collected and initial weights were taken. SSL Soil 2 Glass Soil was applied to each coupon and allowed to air dry for 24 hours. After the 24 hour dry time, the weights of the newly contaminated coupons were measured. All coupons were placed into a Gardner-scrub Abrasion Tester machine. Wypall cleaning cloths were attached to each of the 3 cleaning blocks used for the test. Each Wypall cloth and all coupons received 2 sprays of the Cleaning Vinegar solution and the Gardner-scrub Abrasion Tester was run for 20 repetitions, simulating 20 manual wipes. Once cleaning concluded, the cleaned coupons were allowed to air dry for 24 hours. After 24 hours, the weights of the cleaned coupons were measured.

Results:	Cleaner	Substrate	Initial wt of cont.	Final wt of cont.	%Cont Removed	% AVG	% Overall
	Cleaning Vinegar	Chrome	0.1055	0.0044	95.83	89.46	93.14
			0.3700	0.0042	98.86		
			0.2261	0.0814	64.00		
		Glass	0.5583	0.0047	99.16	95.44	
			0.7716	0.0039	99.49		
			0.7667	0.0946	87.66		
		Mirror	0.3955	0.0047	98.81	94.52	
			0.5424	0.0059	98.91		
			0.6009	0.0851	85.84		

Summary:	<b>Substrates:</b>	Glass/Quartz, Other, Chrome				
	<b>Contaminants:</b>	Glass				
	<b>Company Name:</b>	<b>Product Name:</b>	<b>Conc.:</b>	<b>Efficiency:</b>	<b>Effective:</b>	<b>Observations:</b>
	Acros Organic	Acetic Acid		93.14	<input type="checkbox"/>	

Conclusion: Cleaning Vinegar showed success in the removal of Glass Soil from chrome, glass, and mirror substrates.
