SCL #: 2021  
 DateRun: 07/23/2021  
 Experimenters: Nicole Kebler, Edward Judge  
 ClientType: Cleaner Manufacturer  
 ProjectNumber: Project #2  
 Substrates: Ceramics, Plastic, Painted metal  
 PartType: Coupon  
 Contaminants: Hucker's Soil  
 Cleaning Methods: Manual Wipe  
 Analytical Methods: Gravimetric, Visual

Purpose: To evaluate the effectiveness of all-purpose cleaners on ceramic, painted metal, and plastic.

Experimental Procedure: One provided tablet was dissolved completely in 32 oz. of warm tap water inside a provided spray bottle to prepare the Amazon Aware All-Purpose Cleaner. Prewedged ceramic, plastic, and painted steel coupons, three of each substrate per cleaner, were coated with 0.5 grams of Hucker's soil and air-dried at room temperature (68F) for two hours before recording dirty weights. Three coupons of the same substrate were placed on the Gardner Straight Line Washability (SLW) unit and a Kimberly-Clark Wypal was attached to the cleaning sled. The Wypal and coupons were treated each with two sprays of the specified cleaner before running the SLW unit for 20 cycles (30 seconds of cleaning). Cleaned coupons were air-dried overnight and final weights were recorded the following day.

Results: The SLW unit failed to properly clean the 3rd coupon (bolded in the table below) of all tested cleaners which resulted in a lower average percent removal for all products. An average using only the first and second coupon percent removal showed a higher percent removal that was more consistent with visual observations.

Cleaners:

A) Amazon Aware All-Purpose Cleaner

B) Formula 409

Substrates:

1. Ceramic

2. Painted Metal

3. Plastic

## CLEANING LABORATORY EVALUATION SUMMARY

Company Name:	Product Name:	Conc.:	Efficiency:	Effective:	Observations:
Sunstate Laboratory LLC	Sunstate All Purpose Cleaner Tablet	100%	95.00	<input checked="" type="checkbox"/>	Sunstate All-Purpose was effective at removing Huckers soil from ceramic, painted metal, and chrome.
Clorox Company	Formula 409 All Purpose Cleaner	100%	93.00	<input checked="" type="checkbox"/>	Formula 409 was effective at removing Huckers soil from ceramic and painted metal.

Conclusion:

Amazon Aware All-Purpose Cleaner using one tablet was more effective than the comparative product overall at removing Hucker's soil from all three substrates.
