

CLEANING LABORATORY EVALUATION SUMMARY

SCL #: 2008

DateRun: 09/23/2008

Experimenters: Jason Marshall

ClientType: Machine Construction Company

ProjectNumber: Project #2

Substrates: Steel

PartType: Coupon

Contaminants: Coatings

Cleaning Methods: Ultrasonics

Analytical Methods: Gravimetric

Purpose: To reevaluate previously tested products using ultrasonics and heat.

Experimental Procedure: Nine products were selected from the previous four trials based on partial success on removing the supplied soils. Six products were diluted to 5% using DI water in 400 ml beakers. The other three were used at full strength based on vendor recommendations. Beakers were immersed and heated to 130 F in a Branson 40 kHz ultrasonic tank. Solutions were degassed for five minutes.

Twenty-seven preweighed steel coupons were coated with the rust preventative VCI 325 using a hand held swab. Coupons were weighed again to determine the amount of soil added. Three coupons were cleaned in each solution for 10 minutes using ultrasonic energy. Coupons were rinsed for 15 seconds in tap water at 120 F and dried using compressed air at room temperature for 30 seconds. Final weights were recorded and efficiencies calculated.

Results: Eight of the nine products removed over 90% of the rust preventative. The Citrus Soy was the only product not remove enough of the soil to be considered to be effective. The table lists the amount of soil added, the amount remaining and the efficiency for each coupon cleaned.

| Cleaner | Initial wt | Final wt | % Removed |
|--|------------|----------|-----------|
| Aquavantage 1400 GD | | | |
| | 0.1039 | 0.0001 | 99.90 |
| | 0.1104 | 0.0041 | 96.29 |
| | 0.1373 | 0.0039 | 97.16 |
| Grease Feast | | | |
| | 0.1240 | 0.0056 | 95.48 |
| | 0.1288 | 0.0080 | 93.79 |

Summary:

| | | | | | | |
|-----------------------------------|---|---------------|--------------------|-------------------------------------|----------------------|--|
| Substrates: | | Steel | | | | |
| Contaminants: | | Coatings | | | | |
| Company Name: | Product Name: | Conc.: | Efficiency: | Effective: | Observations: | |
| Brulin Corporation | Aquavantage 1400 | 5 | 97.78 | <input checked="" type="checkbox"/> | | |
| Ensolve Biosystems Inc | Grease Feast Plus | 100 | 95.25 | <input checked="" type="checkbox"/> | | |
| Gemtek Products | SC Aircraft & Metal Cleaner Super Concentrate | 5 | 98.07 | <input checked="" type="checkbox"/> | | |
| Gemtek Products | Safe Care (SC) Maxi Solv | 5 | 98.43 | <input checked="" type="checkbox"/> | | |
| Chem Free Corporation | SW-1 Ozzy Juice | 5 | 99.04 | <input checked="" type="checkbox"/> | | |
| United Laboratories International | Smart Solve 605 | 100 | 96.95 | <input checked="" type="checkbox"/> | | |
| Bi-O-Kleen Industries | Citrus Soy Solvent Cleaner & Degreaser | 5 | 80.37 | <input type="checkbox"/> | | |
| Franmar Chemical | Bean-e-doo (Parts Washer Solvent) | 100 | 96.09 | <input checked="" type="checkbox"/> | | |
| Kyzen Corporation | Ionox HC 2 | 5 | 93.19 | <input checked="" type="checkbox"/> | | |

Conclusion:

The eight effective products will be tested on the second supplied contaminant using the same operating conditions.
